

# Adams County 2021

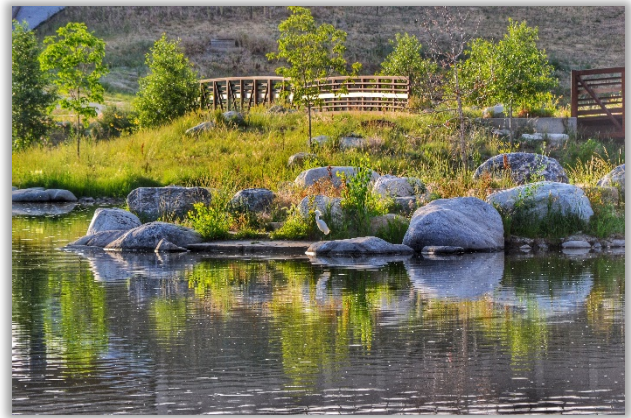

## Drainage and Flood Mitigation Projects in Your Area

*[Denver, CO, February 2021] Mile High Flood District (MHFD) is partnered with 41 local governments to master plan drainage improvements throughout the Denver Metropolitan area; design, construct, and maintain stream corridors including removal of trash and debris; provide flood warning services, and develop resources related to improving water quality in our streams. MHFD is pleased to inform you about the projects we are planning in 2021 for your county.*

### Capital Improvement Plan (CIP) Projects:

**This program leverages local government dollars to fund stream projects that reduce flood risk and provide community amenities. The 2021 Work Plan includes the following projects for Adams County:**

- Grange Hall Creek – at Washington Street
- Niver Creek – at Zuni Street
- Clear Creek at BNSF Railroad
- Niver Creek Trib M – Thornton Parkway to Huron Street
- Irondale Gulch – at Highway 2
- Shaw Heights Tributary – Lowell Boulevard to Little Dry Creek
- Baseline Outfall – 19th Avenue to the Preserve

*Little Dry Creek*

### Studies:

**Watershed Planning studies that have been requested or sponsored by municipalities within Adams County in 2021 include:**

- Buffalo Run Tributary Major Drainageway Plan
- Fairfax Tributary & Tributaries Major Drainageway Plan
- Hoffman Drainage Hydrology Update
- Todd Creek & Tributaries Major Drainageway Plan and Flood Hazard Area Delineation

### Stream Maintenance Efforts:

**This program helps local governments manage publicly-owned reaches of regional streams. The 2021 Work Plan includes the following efforts for Adams County:**

- Annual Vegetation Management & Debris Removal
- Sediment Removal
- Restoration Projects
- Minor Repairs

*Westerly Creek*
