

Jefferson County 2022

Drainage and Flood Mitigation Projects in Your Area

[Denver, CO, March 2022] Mile High Flood District (MHFD) is partnered with 41 local governments to master plan drainage improvements throughout the Denver Metropolitan area; design, construct, and maintain stream corridors including removal of trash and debris; provide flood warning services, and develop resources related to improving water quality in our streams. MHFD is pleased to inform you about the projects we are planning in 2022 for your county.

Capital Improvement Plan (CIP) Projects:

This program leverages local government dollars to fund stream projects that reduce flood risk and provide community amenities. In 2022, MHFD plans to work on the following projects throughout Jefferson County:

- North Dry Gulch – Lamar to Teller Street
- Weaver Creek – at Belleview Avenue
- Lena Gulch – at Zeta Street and upstream
- Big Dry Creek – Upstream of Sheridan Boulevard
- Walnut Creek – US 36 to Simms Street
- Ralston Creek at Ward Road
- Ralston Creek at Croke Canal

Studies:

Watershed Planning studies that have been requested or sponsored by municipalities within Jefferson County in 2022 include:

- Dry Gulch Flood Hazard Area Delineation
- Clear Creek Major Drainageway Plan Update for Wheat Ridge

Stream Maintenance Efforts:

This program helps local governments manage publicly-owned reaches of regional streams. The 2022 Work Plan includes the following efforts throughout Jefferson County:

- Annual Vegetation Management & Debris Removal
- Sediment Removal
- Restoration Projects
- Minor Repairs
